Healthy Pets Club

Our Healthy Pets Club is designed to give your dog and cat the best preventative healthcare available.

Monthly payments spread the cost, allowing you to budget for your pet's needs throughout the year. Each of the three options includes your pet's routine annual vaccination, one **FREE** veterinary consultation per year and many other savings on essential services and products.

Not all clients and pets require the same benefits. You can select the option which best suits you:

£15.00
per month

Healthy Pets Club Favourites

Ideal for puppies and kittens needing a full vaccination course and for all regularly vaccinated pets. As well as vaccination you receive year round flea and worm treatment (including treatment of lungworm in dogs), one **FREE** veterinary consultation per year & other discounts as listed.

£15.00
per month

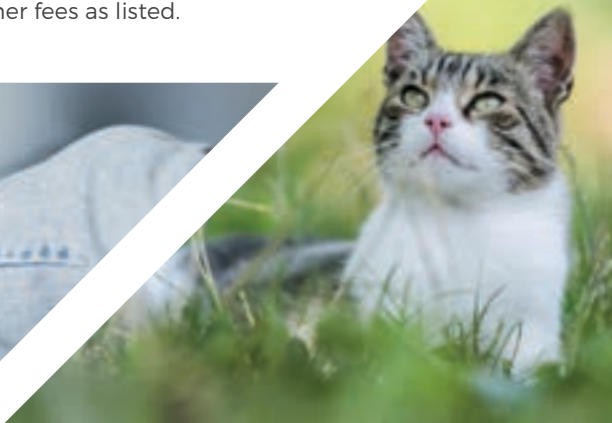

Healthy Pets Club Choices

Ideal for dogs and cats that have regular vaccinations and are on long term medication. It includes routine vaccinations and one **FREE** veterinary consultation a year, plus **50% discount** on further consultations*, including out of hours emergency consults. You also get discounts on long term medication, in-house blood tests, Hill's Pet food and many other fees as listed.

£18.00
per month

Healthy Pets Club Plus

Combining all the benefits of Favourites and Choices, this is the 'gold standard' for all regularly vaccinated cats and dogs. This option is highly recommended as 'the best a pet can get' - the best preventative healthcare for the pet and the best value for the client.

Our Healthy Pets Club is not a pet insurance policy. The club is a way to spread the cost of routine preventative pet care at the recommended annual doses, however, it does not cover the costs of veterinary care for unexpected illness or injury to your pet. We recommend taking out separate pet insurance for this.
